VC funds have a broad investor base

Nearly one-third of the capital raised by Finnish VC funds in 2025 came from pension funds.

The next largest investor groups were public sector entities, other asset managers and family offices.

Sources of funds 2025

The graph does not include fundraising from unclassified sources, 11% of the total fundraising.

Sources: FVCA, EDC

VC fundraising is mainly domestic

75 %

The majority of VC fundraising came from domestic investors in 2025.

€511m

Fundraising by Finnish VC funds from domestic investors rose to a new record.

€69m

Capital raised from foreign private sector investors reached a historically high level.

Fundraising by Finnish VC funds from domestic and foreign investors

The graph does not include fundraising from unclassified sources, representing 7% of total fundraising (2016–2025).

Sources: FVCA, EDC

Slight decline in the median size of Finnish VC funds

€51m

The median size of Finnish VC funds has more than doubled compared with the 2016–2021 period, but it has edged down slightly in recent years.

Investments

Finnish VC investments in startups hit record high

€485m (+21 %)

Finnish VC investments in domestic and foreign startups reached a record-high level in 2025.

€304m

The majority of Finnish VC investments are directed toward early-stage companies (seed and startup stages).

Investments by Finnish VC Investors

Number of funded startups remained high

291 startups

The number of startups that received investment from Finland remained close to a record high.

Finnish VC investors now invest in around 100 more companies each year than they did ten years ago.

Investments by Finnish VC Investors

A company may have received more than one investment during the same year (e.g. both in the seed and startup stages). However, each company is considered only once in the total number of investments.

Sources: FVCA, EDC

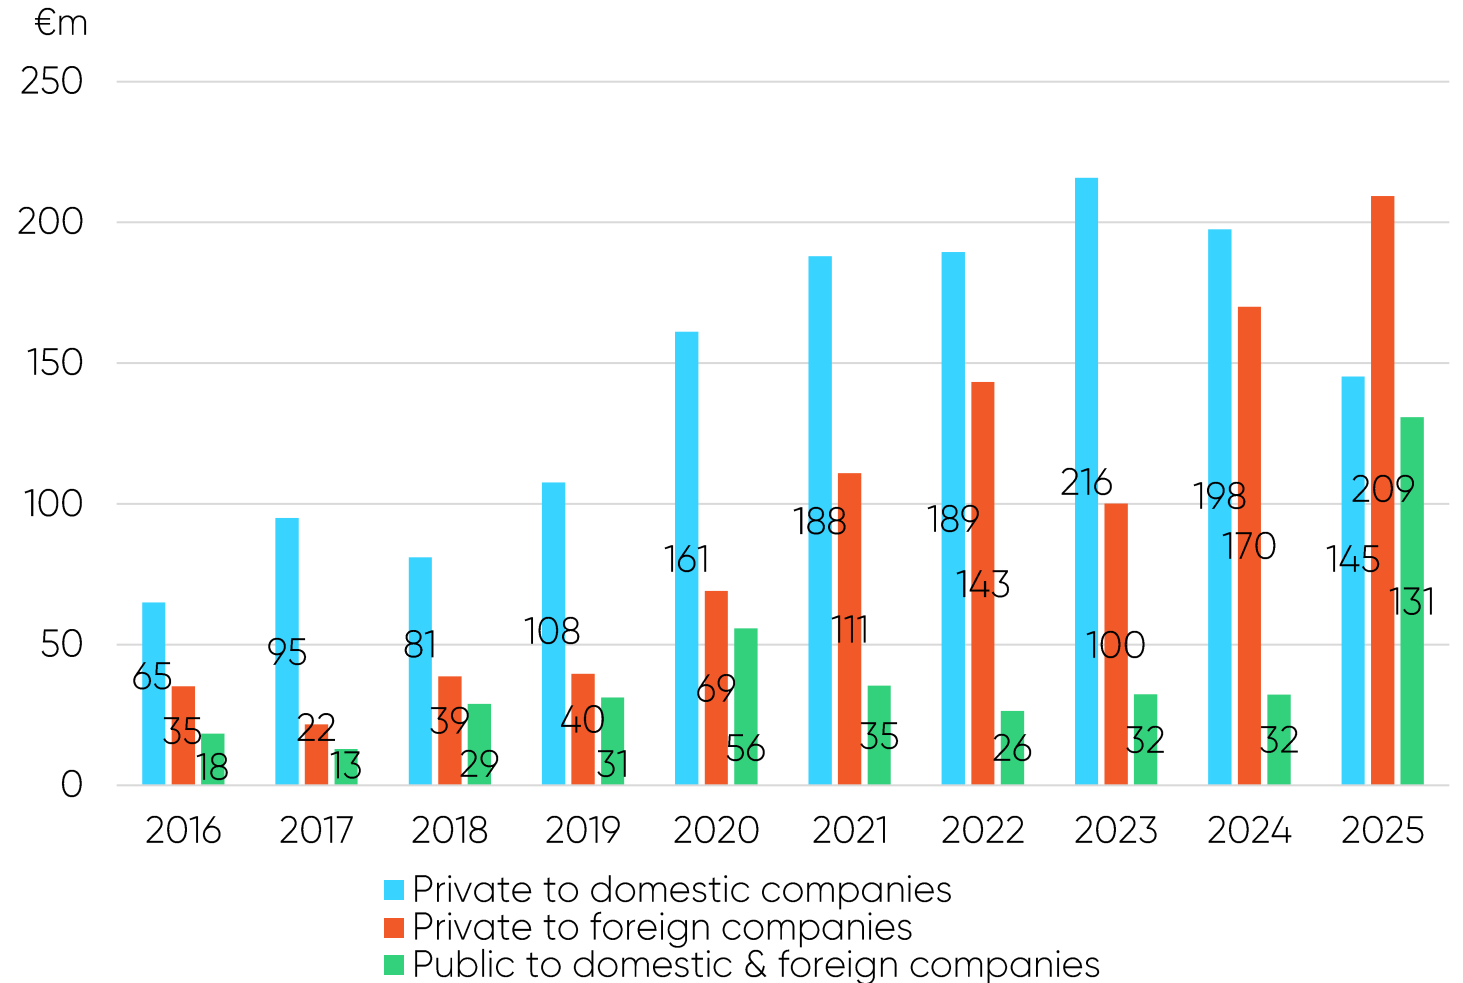

Major increase in public sector VC investments

€131m

Public sector investors accounted for around one-quarter of total investment volume in 2025, and investments were mainly directed at domestic companies.

Private sector investors mainly finance companies' early growth, while the public sector has stepped in to fill the funding gap in later growth stages, where investment sizes are larger.

Investments in startups by Finnish private and public VC investors

Finnish VC investors are increasingly international

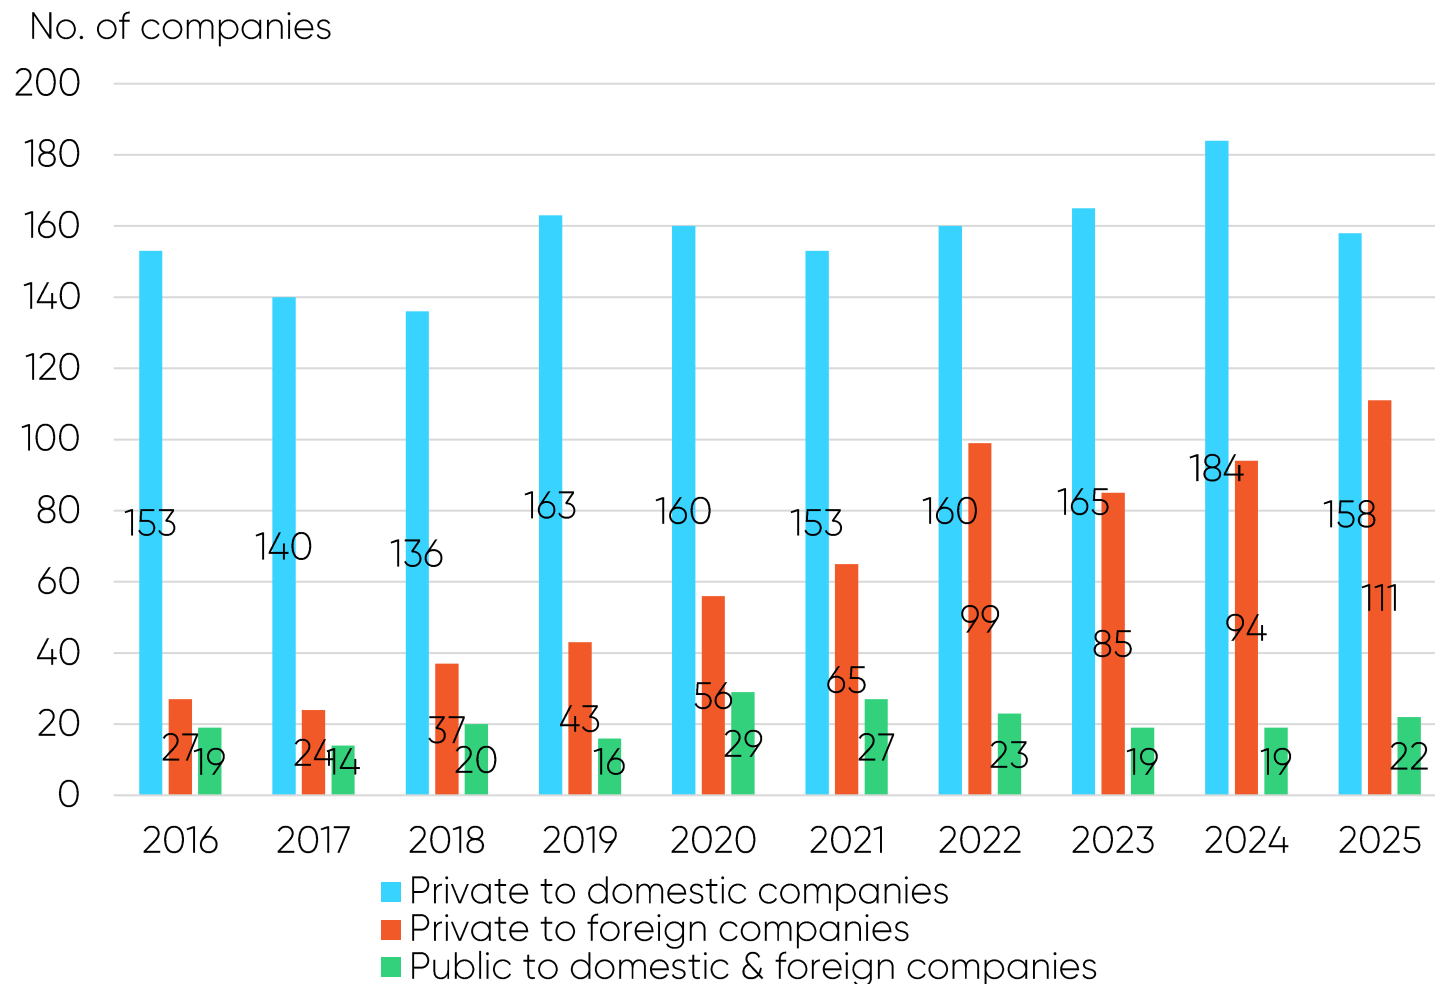

111 foreign startups

Finnish VC investors invested in a record number of foreign startups in 2025.

158 domestic startups

The number of domestic startups receiving investment from Finnish VC investors remained at a high level, although below the previous year's peak.

Investments in startups by Finnish private and public VC investors

Pääomasijoittajat

Finnish Venture Capital Association

Divestments

Slight recovery in divestments

The number of exits (excl. write-offs) increased from the previous year but remained at a moderate level.

44 %

The share of write-offs was slightly above the previous five-year average (40%).

Investments

Investments in Finnish startups increased sharply

€765m (+60 %)

VC investments in Finnish startups increased clearly from the previous year and rose back towards peak-year levels, driven by later-stage investments.

However, the number of Finnish startups receiving funding declined by 14% from the previous year, indicating larger average investment sizes.

Domestic and foreign VC investments in Finnish startups

Start-up stage investments remained at high level

113 (+8 %)

The number of Finnish companies receiving startup-stage investments rose to a new record in 2025.

The number of Finnish startups receiving seed-stage investments declined clearly from the previous year's record level (-40%).

Domestic and foreign VC-investments into Finnish companies

Foreign VC investments in Finnish startups doubled

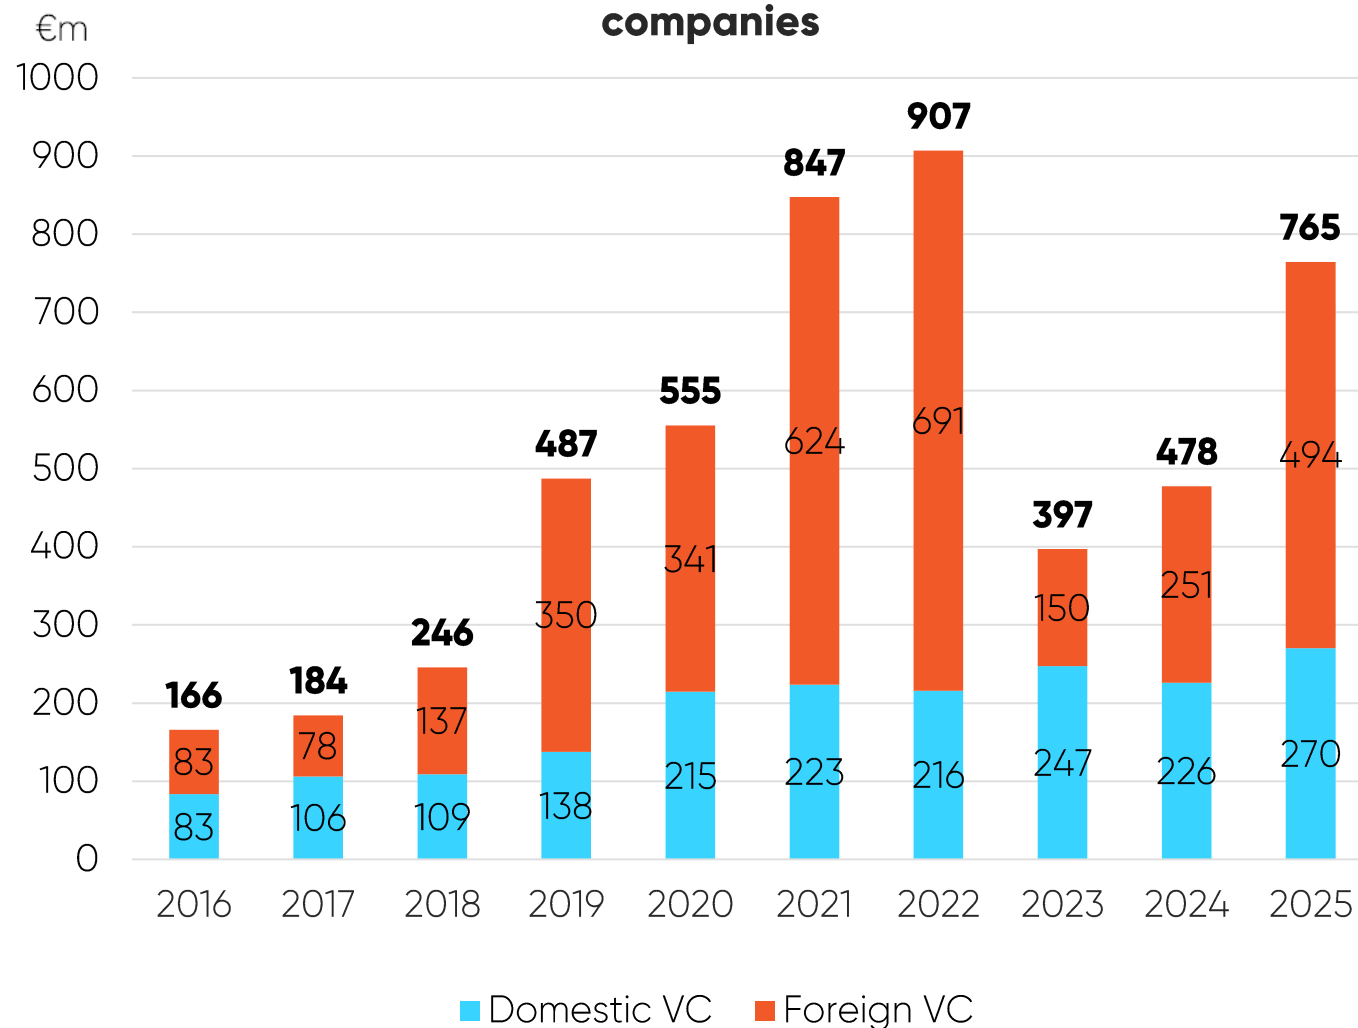

€494m (+97 %)

Foreign VC investments in Finnish startups increased strongly in 2025.

€270m (+19 %)

Domestic VC investments in Finnish startups rose to a new record.

Domestic and foreign VC investments into Finnish companies

Drop in number of startups receiving investment

167 startups (-13 %)

The number of Finnish startups receiving domestic VC investment remained high, although it fell short of the previous year's peak.

38 startups (-7 %)

The number of Finnish startups receiving foreign VC investment declined slightly from the previous year

Domestic and foreign VC investments into Finnish companies

No. of companies

ICT companies are the most popular investment targets

50 %

Half of the Finnish startups that received investment operated in the ICT sector in 2025.

The ICT sector includes, for example, software, applications, communication and computer technology, as well as electronics.

A clear decline was seen in products and services for both consumers and businesses.

VC investments in Finnish companies by industry

Pääomasijoittajat

Finnish Venture Capital Association

Divestments

Cautious recovery in divestments

19 divestments

The number of divestments (excl. write-offs) was in line with the previous five-year average but remained below earlier strong years.

42 %

The relative share of write-offs was close to the five-year average (40 %).

The statistics describing the Finnish private equity industry are based on information received from European Data Cooperative (EDC) private equity database.

- A fully functional, centralised non-commercial pan-European private equity database.
- With its own staff, internal resources and webportal.
- Information is collected directly from VC/PE investors via an online survey and complemented with public sources of information.
- Figures are updated continuously and are therefore subject to change.

Note: The EDC statistics include only VC/PE firms' (including evergreens and captives) investments. Syndicate and direct investments made by several other investors, e.g. LP co-investors, individuals, entrepreneurs, business angels, management, corporates, funds-of-funds, other asset managers and financial institutions, are not included in EDC statistics. The activity falling outside EDC's methodology is however included in the figures in the section "Investments in Finnish startups".

Methodology

Investment and divestment statistics are aggregated via two methods – industry statistics and market statistics

Industry statistics

- By country of private equity firm's office
- Here: Domestic and foreign investments/divestments made by the Finnish offices of private equity firms

Market statistics

- By the location of the portfolio company
- Here: Investments/divestments in/from Finnish portfolio companies made by domestic and foreign private equity firms

Note: The aggregated figures may not always sum up to totals due to rounding. Some graphs may exclude unspecified variables.

Fundraising is classified according to the location of the advisory team. Investments are classified according to the location of the office responsible for the investment.'

For more information about the methodology, please contact the Finnish Venture Capital Association (FVCA).

Investment stages

VENTURE Investments in companies in their early development stage	Seed	Seed
	Start-up	Start-up, Other early stage
	Later stage venture	Early growth, Transition stage
GROWTH* Investments in companies beyond the early stage that are scaling their business	VC-Growth (Venture growth, venture-backed growth)	Growth investments made with either continued participation by a VC fund on the investment round, or else full divestment by the involved VC fund(s) at the time of the Growth round
	BO-Growth (Buyout growth, non-venture backed growth)	Growth investments where VC funds had either fully divested prior to the Growth round, or else had never backed the company in question before
BUYOUT A transaction financed by a mix of debt and equity, in which a business, a business unit or a company is acquired	Rescue/Turnaround	Rescue/Turnaround
	Replacement capital	Secondary purchase/Replacement capital, Refinancing bank debt
	Buyouts	Management buyout (MBO), Management buy-in (MBI), Public to private, Other PIPE, Other leverage buyout

*The split of the growth-stage in VC-growth and BO-growth is included first time in the publication of 2023 statistics.
